Senior Software Test Engineer

Accenture, Delhi, London, Frankfurt

Accenture India

- I started as a performance test engineer for Accenture India. My role during this time was to develop performance testing scripts using Loadrunner and then set up the performance testing scenarios and execution of performance tests.

Accenture UK

- I was working at Client site in the United Kingdom for a retail client handling end to end performance testing. My role was to ensure smooth upgradation of applications ensuring the performance is not degraded during addition of any new functionality.
- I was also involved in automation testing using SOAP UI and Postman and leading the manual testing team.
- Implemented data analysis for server-side production metrics using Splunk.

Accenture Germany

- I was working in Frankfurt, Germany for a banking client handling end to end performance and automation testing.
- Performed end to end performance testing for multiple projects. My role involved gathering requirements from the stakeholders, planning, executing the performance tests, finding bottlenecks in the code, suggest performance optimizations.
- Leading QA Teams in India and Germany

- Responsible for automation testing of Webservices using SOAPUI.
- Dockerized the testing and running of the test framework in CI pipelines.
